A Helpful Wish

We all make wishes once in a while, especially on one's birthday. Our wishes may vary from getting good grades to making the world become a better place. If I could make a helpful wish, I wish I could help my parents pay off the debt.

Since I was little, my mother has been telling me that she felt sorry for both my brother and I. She also told me that if they hadn't mistrusted someone, they wouldn't have lost all the money they earned, making our family live in such a poor condition. At that time, I did not fully understand the meaning of the words my mother said. Now, I am a senior high school student and I finally realize what my mother said. Seeing my parents working so hard every day, I sometimes feel guilty of not having enough strength to help my parents.

If my wish can come true, I will have strength to support my parents. They will no longer worry so much because they can always rely on me, and I will share their burdens. Though I haven't realize my wish yet, I deeply believe that as long as I work hard, I will definitely help my parents pay off all the debt.
